

### Fall 2022 CIS 3362 Homework #3B Grading Criteria

1) 30 pts – Give full credit if they get it.

If they don't get it, give a maximum of 20 points as follows:

3 pts for getting that n, r and a in same row

3 pts for getting enda is a box

3 pts for getting that e and d are above n and a and that a isn't in the keyword

3 pts for getting that e, n, m and v are on the same column with m and v not in the

Keyword

3 pts for getting diab is a box

3 pts for that box being with with di above ab.

2 pts for filling out the rest of the grid based on this above

2) 20 pts – 10 pts for generating all Hill keys (look at attached code or description)

5 pts for correctly calculating corresponding letter frequencies after applying Hill

5 pts for getting the answer

Please always award 0, 10, 15 or 20 points for this with no partial for any part.
