

## **COP 3223 Section 1**

Practice Problems #2 – Fall 2011

Instructor: Dr. Joseph J. LaViola Jr.

1. Download the `addfrac.c` program from WebCourses. Compile and run the program. Modify the program so that the user can enter both fractions at the same time, separated by a plus sign. For example:

```
Enter two fractions separated by a plus sign: 5/6+3/4
The sum is 38/24
```
