2.2 Special Departmental Requirements

Foundation Exam: Within one year after passing COP 3502C (with a C or better), CS students MUST pass the Foundation Exam, which covers problem solving techniques, algorithms, abstractions, proofs, programming skills, etc.

Grade Requirements: All department-required courses (listed in sections 2.1.1, 2.1.2, 2.1.3 and 2.1.4) must be passed with a “C” grade or better. A minimum GPA of 2.5 is required in the courses listed in section 2.1.3.

Departmental Residency Requirement: At least 24 hours of computer science coursework must be completed in the CS department at UCF (18 hours of these in regularly scheduled 4000-5000-level courses and six (6) of these in 3000- to 5000-level).

2.3 Transfer of Credit

Courses with a common course number taken at any Florida State University System (SUS) institution or Florida State or community college are automatically transferable. Students with a Bachelor of Science from an accredited institution or an Associate of Arts degree from a Florida SUS institution or Florida community college automatically satisfy the GEP. Substitutions for GEP must be approved through Academic Services, Millican Hall (MII) 210.

Substitutions for department requirements are on a course-by-course basis and MUST be approved by the CS Undergraduate Coordinator and the CS Chair. Instructions for this process are in the Computer Science office: Harris Corporation Engineering Center (HEC 346). The decision is typically based on the degree of similarity of the courses both in content and level of presentation. Regardless of transfer credit, the University and Department residency requirements must be satisfied. Exception: Substitutions requests for courses offered by other departments must be filed in the Academic Affairs Office (Engl-107) or the department offering the course.

3. How to Apply

We assume the AA degree includes:
- MAC2311, MAC2312, STA2023, PHY2048, PHY2048L, PHY2049, PHY2049L and 6 credits from BSC2010, BSC2011, CHM2045, CHM2046.

Total Degree Hours = 120 Credit Hours

Note: The “Sample Program of Study” assumes that the student has an AA from a Florida Community College and has completed all science/math courses.
