- Summary: ???

???

- Meeting Time: ???
- Outline: This meeting we discussed queues, runtime & Big-Oh notation, and exam reviews.
- Summary: ???

10/09/23

- Meeting Time: 5:00 pm
- Outline: This meeting we discussed recurrence relations, different recursion techniques, and reviewed for the exam.
- Summary: Members utilized mainly recitation documents and notes listed on the website regarding meeting the goals from the outline. On one of the exam review questions, one member forgot to implement a recursion technique. However, that was immediately corrected by one of the other members. Most of the group had trouble with questions regarding recurrence relations, so one of us did reach out to a TA regarding our questions.
